THE 7 TESTS

▶ Master Li's message invites you to count the number of nails on the door. There are 17 visible ones and 10 hidden under the piece of paper and the boxed text. Therefore, there are 27 nails in total. Take card .

▶ Take each of the cards whose numbers are on the teapot , , and .

▶ Place the fan as shown opposite. On the back of the cards, you have formed a wind rose. North is signaled by the letter "N" and east is signaled by a "?". The word "east" starting with the letter "E", take card .

▶ This structure represents a Yi King oracle! Use the app's dedicated button to recreate it: long, long, long, double, long, long. Take cards and .

▶ The words of the peddler are a Yi King oracle. Use the app's dedicated button to recreate it: long, double, long, long, double, double. Take card .

▶ The beggar makes a reference to the mahjong tiles: at the crossroad is the 8-flower tile. Take card .

THE 7 TESTS (CONT'D)

- ▶ Make a raft with the bamboos and rope:

$8 + 40 = 48$.
Take card 48 .

- ▶ Cross the lake by raft: $12 + 48 = 60$.

Take card 60 .

- ▶ Enter in machine 60 and reproduce the shadows as shown opposite.

- ▶ The scrolls (**76**) are a Yi King oracle. The black line on the central scroll means that it is double. Use the app's dedicated button to recreate it: long, long, double, long, long, long. Take card **20**.

- ▶ The tiger and rooster symbols of card **20** are engraved on the columns of card **75**. If you place the tips of the chopsticks (**87**) on each of the symbols, the opposite end of the chopsticks gives you the password: "eternal glory". Enter in machine **15** and say "eternal glory" out loud. The machine has speech recognition. Take card **22**.

- ▶ The symbols on the wall have a meaning, but only if you take the lower left quart (the top of the wall gives you a hint). So, you can read « 24 + 47 ». 24 + 47 = 71. Take card **11**.

THE 7 TESTS (CONT'D)

- ▶ Enter in machine **88**. Here, the number of butterflies, flowers, and fish is irrelevant. What matters is their positioning: the butterflies form the number 3, the flowers form the number 8, and the fish form the number 6. So, press 3 times the butterfly symbol, 8 times the flower symbol, and 6 times the fish symbol. Take card **99**.

- ▶ Place the cards referred to by the Empress as shown opposite. All are Yi King oracles:

A direction, card **€**;

A travel, card **26**;

A wave, card **31**;

An enlightenment, card **68**;

The forbidden, card **66**;

And knowledge, card **76**.

The 6 cards form a new oracle! The cards whose illustration is horizontal are long lines and the others are double lines. Use the app's dedicated button to recreate the oracle: long, double, double, long, long, long. Take card **30**.

- ▶ What remains to be known is who should get this coin. The beggar seems to be the neediest one: **30** + **65** = **95**. Take card **95**.

- ▶ Enter in machine **95** and don't rush to answer. Have no fear! You can't go wrong. However, among these qualities, the one you have really demonstrated throughout this adventure is undeniably perseverance. So, go ahead and press the "perseverance" button.

Congratulations to you all! You proved yourselves to be worthy of becoming Master Li's disciples. Keep up the good work!
